VICTORIA, V. 1. MONDAY, MORNING, NOVEMBER, 13, 1871.

To the Electors of Vancouver Island District.

CENTLEMEN:—In response to the solicitation of a number of proundnest continuous residing in the different settlements of your Electoral District to offer myself as a candidate to represent your interests in the House of Commons! I fave, latter instate consideration, consented to do so, and have now the honor to solicit your suffrages at the appreaching election.

The measures that a member of the House of Commons may be called on to dear with being different frem those of a member of the local legislature, being in their mature more national, it is doublies expected that is a candidate should advert to at least some of them that more directly someorem some interests. I will say then.

that having been one of the earliest advocates of a Cana-dian Transcontinental Railway, I shall, if elecised, con-sider it to be my paramount duty in view of making it a grand national success, to insist that the Torminus shall be at Esquinalf, and that the line shall traverse the en-tire outh-Eastern Coast of the Island from Johnson

be at Esquinalf, and that the line shall fraverse the entire outh-Eastern Coast of the Island from Joinson
Straits

Under the Terms of Union with the Dominicu, it is the
province of the local legislature, and not of the Dominion Parliament, to decide as to the kind of tariff that the
people of British Columbia deem to, be heat suited to
likeir varied industrial interests, during the next ten
years. Skanld, however, the question come before the
Dominion Parliament, I shall endeavor to have the
tariff so framed as to meet with the concurrence of the
agricultural, mining, and commercial interests of your
district.

As the Dominion now possesses exclusively the right
to manage our postal and telegraphic alliers, I shall endeavier to secure for the Eastern Coast, a 14-weekly mail
steamer of a singular fillies to the one beging on the
coast,—and also better mail facilities in each Settlement;
and as I deem it to be of great importance commercially
to have the most rapid means of transmitting intelligence between Nanakato had Victoria, I shall urge on
the Federal Government the importance of the early coustruction of a telegraph line to connect the two principal
towns in the Province.

The increasing importance of the commerce of the
Gulf of tieograp renders it – necessary to have more

struction of a telegraph line to connect the two principal towns in the Province.

The increasing importance of the commerce of the Gulf of Georgia renders it necessary to have more Lighthouses. I shall therefore make the most strenuous exertions to induce the Foderal Government to build a lighthouse at Nanaimo at once, and to creek the others classwhere, as soon as possible, to linear greater safety and certainty in navigating the Gulf.

With respect to the Indians, I will large that they be settled on Reservations, under the superintendence of Government Agents, where they may, with the assistance of the Government, be taught the arts of civilization, and thus have their social, shoral, and religions conditions rapidly improved.

The question of the early construction of a Marine Hospital at Namimo, I deem to be deserving of serious consideration.

The question of the early construction of a Marine Rospital at Namimo, I deem to be descrying of serious consideration.

The Geological Survey now begun will doubtless be of great practical advantage to the country,—and anything that I may be able to do to insure the geological exploration of the vast mineral weight of your district shall not escape my attention.

The Fisheries along our coasts premise to become very profitable, and as the Dominion towerment that agreed to extend its protection and encouragement to that valuable and important branch origindustry, I will endeavor to secure for your district its full share of any aid that may be appropriated for that purpose.

Not being able at this time to explain my views at greater length, I will take an early opportunity to meet you personally and collectively in the different settlements, when I may bring under your nitrice other questions of a Provincial and Dominional character.

In conclusion, Gentlemen, If you should do me the honer to return me to the House of Commons as your representative, I pledge investito faithfully serve your interests to the best of my ability.

ROBERT WALLACE

ROBERT WALLACE.

Victoria, B.C., August 31, 1871.

CENTLEMEN:—In compliance with the request of a number of the electors of the above district, I have much pleasure in offering myself as a candidate for the honor of representing you in the liquise of Commons interests being so closely identified with my ow Your interests being so closely identified with my own affords you the surest guarantee that they will at all times receive my best attention and support; but us it is difficult to say at present what zeatters may come before the House at Ottawa, this assign, a healt confine my remarks to a few leading subjects, which I consider most essential to the welfare of this Province, and especially that portion of it which I seek to represent.

I shall endeavor to procure a regular and efficient Mail Service throughout the populous portions of the District.

I shall support any measures brought forward by the focal Rouse for the establishment of a Libertalysh of

Level House for the establishment of a hilteral zelo of System throughout the Province and the appropriation of the necessary funds from the general revelue.

I am in favor of the appointment of County Court Judges in this Province.

I am in favor of the appointment of County Court Judges in this Province.

In solicities, pare super at the brithcomin dection it becomes my day to assess my views on bonimional politics, having a direct hearing upon the interests of British Columbia, which I shall do as briefly as possible. I shall be a staunch supporter of the present Government of Camada so long as that Government shall adminisher the affairs of this Donanion in general and of this Province in particular, in a satisfactory manner.

Rnowing the feasibility of the Camadian Pacific Railroad from personal observation along the greater part of the probable line of route, and having advected such an enterprise in my Guesiaus dogses, published in Dutario; as well my Guesiaus dogses, published in Dutario; as well my of this const for the past twe tyears. I shall endeaver, by every means in my power, to bring that grainful and ordinary to the probable line of route, and having advected such an enterprise in my Guesiaus dogses, and translation at Taguinal to some other harbor on Vancouver Island.

I may here say that I hm not the favor of Introducing Coolle labor either on the Railroad or other public works and whilstreamously resist any attempt included frection. Should the Tariff problem not be solved by the Local Legislature; but a modification of his Canadian Tariff, in so far as agricultural produce is concerned, recommended, I shall make every possible effort a scure its adoption by the Veteral Parliament.

I am fully of the opinion that the Federal Government will place mail communication on a thoroughly efficient footing from Scoke to Comox long before the re-opening of Parliament; should this however, not be the case I shall, if elected your representative, see to it, that every settlement is duly cared for in this important particular. The subject of Immigration is one of great moment and shall always have my measurement will be required in every settlement. These will soon locat

The Daily Standard. Monday, Movember 13, 1871 "Home Rule" in Ireland.

Seven hundred years of British rule in Ireland have not made the Irish people contented with their Sexon conquerors. Whatever may be the reasons, who may be at fault, there is the historical fact indisputable, - Ireland still wants to manage her own affairs without any interference from the sister isle But after forty-years reading of Irish politics, we have seen nothing, -not even in the days of Great Agitator, O'Cornell,that seems so wonderfully well adapted to secure contentment for Ireland as "Home Rule," So high does it stand in our estimation that it will be passing strange, if "Home Rule" does not become the turning point to bring about the union of the whole Englishspeaking race so as to belt the globe with a Pan-Anglican Confederation, and rule the world. "Home Rule" seems to have been produced in Ireland at a time when everything is propitiouswhen everything seems likely to crown it with success. It is not confined to Catholic or Protestant, to Orangemen or NEW Ribbonmen, to the Irish peasantry or the Irish landed aristocracy, but in all classes, all professions, all religions, as well with the landlord as with the tenant, "Home Rule" seems to be a popular doctrine-a panacea for Irish discontent. We confess that we heartily sympathize with it. This journal has occasionally suggested the same thing as the cure for Ireland's grievances, but always under the name of Confederation. The same principle comes to us now, however, across the water, under the name of "Home Rule." Its great exponent in Ireland to day is Mr. Isaac Butt, M. P., JAM JARS. recently elected to Parliament without NURSERY LAMPS, opposition by the city of Limerick; and t is asserted, apparently with certainty, TEA & COFFEE POTS. that the next elections in Ireland will re- TOILET CANS, turn from forty to fifty members pledged to "Home Rule." People outside of Ire land have been so accustomed to view any national movement in Ireland as en- QUOITS, tire seperation from England, that in all SKITTLES, probability those who may not be posted LADIES'GARDEN TOOLS, may think that "Home Rule" means repeal of the Union and the creation of Ireland into one of the independent and TABLE MATS, sovereign nationalities of the world. SCONCES, Now it means no such thing. "Home CORKS, Rule" is one of the great governmental discoveries of modern times, improved and practiced by different nations,-but especially by the United States, Canada,

roposal to give Ireland 'Home Rule'. FILES of all kinds, It does not mean a separation from Eng- WIRE DISH COVERS, land. It does not mean the withdrawal of WHEELBARROWS, Crows. It does not mean a revolution NORWEGIAN IRON, all sizes. subverting any part of the constitution. It HORSE SHOES, does not mean any power to Ireland to separate her fortunes in peace or war Agricultural Implements from those of the sister countries. It does not mean even the breaking up of of every description, at prices to Scit the the Imperial Parliament." Mr. Butt then adds what "Home

what it is not. Here it is :

Rule" does mean, as follows: "But it does mean that within the CARPENTERS' TOOLS of all kinds present arrangements of the British Em. Post Office Scales. pire, under the authority of the British Crown, and by a Government within the principles of the British Constitution, the Irish nation should enjoy the right of managing Irish affairs-a right without the concession of which Ireland never can be happy, or content, or prosperous

Here, then, is something to put an end to assassination, sedition, treason, discon-tent; and the something is nothing more nor less than to adopt the principle of Confederation in Ireland—in the British Isles. "Home Rule" asks that Ireland may, like Canada, Australia, the West Indies, or the States of the United States, manage her fown local-internal-affairs; that Ireland may have her local legislature like British Columbia, or be divided ap into several Provinces and have a local legislature for each Province like the Dominion; and that all matters of general or international character be managed by an Imperial Parliament.
"Home Rule" then simply confines Irish legislation to the internal affairs of Ireland, and that is simply one great principle of Confederation. We must say, success to "Home Rule." It is right, and will succeed.

Gladstone's Speech on Mational

It is estimated that nearly 12,000 people were present at Greenwich on the 28th October to hear the speech of Gladstone. When the speaker arrived, at noon, he was greeted with cheers. He said he was profoundly impressed with the grandeur of the welcome; pressed with the graudeur of the from ofter that public duties prevented him from ofter that then discusse visiting his constituents. He then discussed the subjects agitating the public. The chief complaint against the Government was that it attempted too much. The present Administration had had the fongest life of any Administration istration since 1832. There was every reson to believe that its vitality was unimpaired. The facts connected with the dismissal from dockyards had been grossly exaggerated; the total number of men discharged was only 1,663. The reduction was in accordance with the policy of his predecessor. The economies of the present Government, through the aboution of official patronage, was gratifying. There was reason for congratulation over the abolition of the purchase system in the army. There was reason for congratulation over the abolition of the purchase system in the army. The House of Lords might need reform, but nothing should be done precipitately. The Lords had not acted wisely in rejecting the ballot bill, which would again be introduced. The Contagious Diseases Act would be considered at the next session in a manner to command the sympathy of the nation.

At the conclusion of his remarks, a resolution of welcome to Gladstone was carried, there being only about 200 dissenting veices.

CARIBOO MINING INTELLIGENCE .- On William Creek the Forest Rose co. last week washed 210 oz ; the Ballarat co. washed 45 oz. The apper creek claims have all stopped for the season. The Bedrock Flume co. have about finished fixing and cleaning up the upper part of their flume, and are running a pros-pecting drift in the back part of the Forward part of their flume, and are running a pros-pecting drift in the back part of the Forward ground. The result of their season's work has been about 500 oz. The Downie and San Juan companies are preparing to drift during Dolly Varden sashes and caps; also choice Juan companies are preparing to drift during the winter. On the Valley Mountain both nydrau'ie companies have suspended work. On Stout Gulch the Flume co are still at work washing, but will not be able to do much more. The Taffvale co., working only shareholders, continue getting small dividends weekly over wages. The Mucho Oro co. are still getting pay, but will probably have to sink a new shaft in the spring on account of the distance they have to run their dirt. Gn Lowhee Creek the Victoria co. last week washed 91 oz. On Lightning Creek the The Spruce co. are making over expenses. The Victoria co. find the water as much as they can contend with on account of the belt of the Vancouver co. below them getting de-ranged by knocking off some buckets. On Cunningbam Creek the Sharp bydraulic co. have finished for the season, and have as usual cleaned up well .- Sentinel, Nov. 4th.

Lower Fraser -The Prince of Wales' Birthday was kept at New Westminster, and burlesques, instrumental and vocal music by marked by a display of bunting Everything a first-class troupe from the Zealous, will be connected with replacing the buoys at the given, to commence at 8 o'clock. Fraser mouth has been most successful. Seven had been fixed up to Thursday last, and the remainder, it was thought, would have been fixed on Saturday. The wheat threshing in the Chilliwack settlements is about over, but the farmers are not inclined to sell their grain at the prices offered-24c. per ib-particularly at the present rates for flour. A Ransome & Sims' flour mill is on the way from England for that section Smith and Rebinson's election for Yale District is pretty certain. The brethren of the L. O. L. held a meeting at the "Royal City" on Thursday last, and after business sat down to a supper. It was a sort of double celebration, says the Guardian, first on account of Prince of Wales' Birthday, and second in memory of "Gunpowder Plot"-5th November. The New Westminster local outnat is strongly in favor of a regular market being held in that city, for the sale of live stock, grain and other produce of the

taken up with reports of proceedings in the Hattie C. Besse, before reported by the County Court and Police Court. In the lat a ter was tried the assault case of John Giscome, committed on the 6th of March last, at Quesuelle, upon Wm. C. Port. After a good and of exidence was heard, Mr Bull sent the case to the As-izes, accepting bail in \$1,000 rick & Co. each. Both expresses are carrying down full loads of passengers, most of whom return in the spring. Mr. Saml Walker has got the contract for on ting the sleigh road on Jack around to Esquimalt to-morrow to discharge of Clubs creek. The Late & Kurtz Co. are naval stores. tting 250 000 teet of sawed logs, and for 500 cords of wood. This will give employment to a good mary during the winter. It is said Mr. Bates, of the 150 Mile House, has purchased the remaining caule of the estate of Edward Tormey, deceased Mesers. Evans, Booth, Walkem and Thomosus again addressed the electors at Van Winkle on Saturday, October 28.

ATTEMPTED INCENDIARISM. - Yesterday morning at half past one o'clock, a Chinathe Monsquetaire Saloon, was awoke by a smell of fire and crackling noise. He got up. and going to the back of his house, discovered a bonfire composed of pitchwood, matches, etc., burning furiously, and he rushed out calling "fire." Sergeant McMillan, who was within a short distance, hastened up and extinguished the blaze by pouring on it a few buckets of water. It is mpossible to surmise the amount of damage that would have ensued if it had nos been so promptly discovered, as the wind was blow-ing to rd at the time. There is no doubt that it was the work of an incendiary, as the pile of inflammable matter was arranged most systematically. No clue has been tound to the perpetrators of this dastardly act.

OMINECA .- Our Cariboo concemporary of the 4th last, says : Almost every day brings fresh arrivals of old Caribooites from Omineca, all of whom seem glad to get once more to what they have learned to consider as, for the present at least, their home. A few of these speak of returning in the spring, but in general they have not a very high opinion of the section, at least so far as yet opened up, the diggings being very spotted. No new strikes are reported, and the number of miners who have made money this season is but small. The trail from the mines is in a very bad condition. A large number of pack animals had already died, and it was feared that of the trains which were still on their way in, but few animals would ever be brought back.

CONFIRMATION SERVICE.—The Bishop of Columbia, assisted by the Dean and Revs Adjutant General that the troops required Jenns and Gribbell, confirmed fifty-seven were complete in numbers, with a reserve of young persons of both sexes, yesterday aftermen awaiting; also that all arrangements had noon, at St. John's Church. The young lades were attired in white, and wore white tulta veils. Notwithstanding that the day and Kingston Districts proceeded his the was most unfavorable out of doors, many of Grand Trunk Railway en route to Collingthose who sought to be present at the ceremony, were unable to gain admittance; there was not even standing room left. The Bishop, previous to and after the laying on of hands, expersed his bourers in their duties.

FROM THE EAST COAST .- The steamer Sir James Douglas, Capt. Clark, arrived from Nanaimo and way ports at 5 o'clock Saturday evening with a large number of passengers, 23 head of beef cattle and the usual amount of country produce. The following was among the passengers: Misses Woods, Mrs. Drinkwater, Capt. Hume, R. N., Mr. and Mrs. Duntmuis Mrs. Baranida and Mr. Compbell Dunsmuir, Mrs. Reynolds, and Mr. Compbell.

We would fain hope that the money will be judiciously expended.

Auspicious 1872 .- Its present outline district results in the return of three Liberals, shroude in mystery like an impenetrable and is as follows: a sky above so clear and beautiful. Each Semlin consecutive year since 1858, has appeared in Coxon various forms, with the same pertinacity the announcement that Pocket and Office Diaries. and Almanacs are ready for the Season .-

THE FASHIONS, -Messrs. Turner, Beeton & Tunstall, of London House, received per express yesterday, a large shipment of autumn goods, amongst which are Alexander's gloves, lace goods, waterproof costumes, &c.

"STUCK ON A ROCK."-The Guardian states that the Prince Alfred when leaving this harbor, last trip, struck on a rock from 4 p m. till I o'clock next day. Our contemporary must have been misinformed, the steam-er touched on the bar when going out in the evening, and got off at 10:30 next morning.

EROM THE MAINLAND .- The steamer Enter. The Corporation Annihilated.

EDITOR STANDARD, -The Colonist of Saturday stated that despite the little technicalities, the new Mayor and Council were going breech-loading rifles and plenty of amount to be sworn in. Weil, suppose they are. First, in order to effect that end, the Town Clerk must certify to the Supreme Court that a Mayor and six Conneillors were duly the Fenians, so that the chances are that if Tus road party from Chemainus having elected according to law; and that such re turns were mide to him by the Returning will not be many of them return alive. Officers, duly appointed and sworn to do their duty. Now, the Returning Officer for Yates street Ward, whose du'y it was to nominate the Mayor and six Councillors, has mide a public statement that the Town Clerk made him secede from his duty on that occasion and that he did not act at all in that capacity. lence, if the Town Clerk makes a return to the Supreme Court under such circumstances that a Mayor and six Councillors were duly elected, what will he do next? The law says that it is a criminal act for the Presiding Member of a Municipal Electoral Assembly to secede from his duty. But what if the said to have been the best known for years. Town Clerk in ists that the Returning Officer The weather has been unusually cold lately, shall not preside at the election, after having been appointed by resolution of the Municipal Council in order to secure the perpetual suc-cession of the Corporation, which could not he secured by or through any other agency? Where the Returning Officer of an Electoral Assembly secedes, even after the meeting has been du'y constituted, and the election entered upon, but before it is completed, an election made after his departure is void. The election is also veid, if held before a person who was not the proper officer to preside; R. V. White, 5, A. & E., 613; R. V. Poole, cas. Tenp. Hardw, 25-27. Now at the election of Mayer and Conneillors, the officer de jure, entitled to preside did not pie ide ; nor was he even sworn, having been prevented from so doing by the Town Cierk, who wanted to cook the Corporation goose bimself, and he did it effectually. Consequently the election is null; R. V. Smith, 5, M. & relw., 271; explained per Bayley, 1. 4, B. & C, 378 by 7 will 4 & 1. Vict. c. 78, S. 1. The bare swearing in of the supposed new lers are to be spent entirely upon torpedo experiments. Germany is making great exertions to found a navy. Twelve million thalers are set apart in the estimates for the purpose for the present year. These estimates are very unusual in the German budget, and excite much interest on account of their novelty. A recent

letter from Berlin says : Prince Adalbert, the High Admiral of Germany, has been visiting all harbors and shipyards where great activity still there seems no doubt that Germany is bent upon roducing a strong naval force. Orders have already been given for two new iron-clads of the largest size to be begun next spring. Considerable sums are set apart for the com-pletion of fortification works Kiel and Wihelmshaven; above all, Government appears to have concentrated its attention upon the further development of the torpedo system. A separate torpedo detachment has been formed composed of a Commander, 9 Lieutenants, 35 warrant officers, 200 sailors and some gun-smiths and side attendants, and 200,000 tha-Empire at present numbers 3 Admirals, 65 Captains, 203 Lieutenauts, 190 midshipmen,
